GitHub: www.github.com/cooperama
Email: cooperama.8@gmail.com
Portfolio: https://cooperama.github.io/portfolio/

Passionate, proactive, and detail-oriented software developer, combining the patience, compassion, and care of an educator with the tenacity, curiosity, and resourcefulness of a developer to build meaningful and robust applications. Maintaining a growth-mindset and accepting and adapting with criticism are qualities I admire and strive toward.

PROJECTS & DEVELOPER EXPERIENCE

General Assembly, Los Angeles, Remote
Software engineering and full-stack web development immersive program, providing the most relevant and current training on today's tech, tools, and best-practices.

- Co[de]pendent – A forum-style app built with a MERN stack and using the FullCalendar JavaScript library to implement a scheduling system. Also using SASS, Moment, and Font Awesome.
- Wayfarer – A community where fellow travelers can see and discuss where they've been. Built with Python/Django, PostgreSQL and SASS.
- Flixr – A web application that helps the indecisive find and select movies that match their mood and interests at the moment. Built with MongoDB, Express, and Node.js and implementing The Movie Database's web API.
- Motchi-Gotchi – A simple game based on the classic 90s Tamagotchi Pet game. Built with vanilla JavaScript, HTML, and CSS.

WORK EXPERIENCE

GATE School, Seoul, South Korea
Homeroom Teacher, February 2019 – February 2020
Gifted and Talented Education for kindergarten students.
- Taught basic English starting at phonics, and building up to reading sight words, full sentences, and short stories.
- Introduced thematic topics related to students' everyday lives allowing for interesting and exciting discussion and listening.

4D Content English, Montevideo, Uruguay
ESL Teacher, July 2017 – February 2019
Business English education for adults, in-company and remote.
- Evaluated student levels and skills and selected materials and textbooks based on students' personal and business goals.
- Introduced grammar and vocabulary using relevant, genuine source materials.

Puruni Childcare Center, Seoul, South Korea
ESL Teacher, March 2015 – February 2016
Cared for young children aged 4-5, including three children with special needs, and taught basic English as a second language.
- Created new games and activities through which children could learn new vocabulary and basic phrases
- Completed monthly portfolios detailing the purpose, process, and results of various classroom activities
- Contributed to an online community of Puruni Childcare educators by posting biweekly lesson and activity ideas
